

Title (capitals and abbreviations only if required)

Name Surname^{1*} (student should be the first author), Name Surname¹, Name Surname¹, Name Surname² and Name Surname²

¹*Affiliation*

²*Affiliation*

Background and objectives

This section should clearly state the objectives.

Material and methods

This section should clearly state the methodology.

Results

This section should clearly state the results. Concrete results need to be included in the abstract. Abstracts for an anonymous drug (drug X) will not be accepted unless it is of value to the pharmacometric community without the identity of the drug.

Conclusions

This section should clearly state the conclusions.

References

In needed, references should be listed here as:

[1] Text for reference 1.

...

[n] Text for reference n.
